

ProntoForms introduces Deployment Services mobile solution turnkey packages

New services enable enterprises to mobilize business processes faster

OTTAWA, ONTARIO--(September 16, 2013) - ProntoForms Corporation (TSX VENTURE:PFM), a mobile form application and platform that improves business processes for enterprises and SMBs, today introduced ProntoForms Deployment Services, a program designed to help customers deploy or expand faster, and to maximize their use of the mobile solution. Featuring three turnkey deployment packages to cater and scale to the needs of the enterprise customer, ProntoForms Deployment Services can help businesses better mobilize their processes in a matter of days, as opposed to weeks or months. Alternatively, businesses can fully self-deploy without added costs by making use of FREE and extensive ProntoForms online resources; webinars, videos, support portal, etc.

"The launch of ProntoForms Deployment Services is the result of both feedback from our customers and our vast experience in mobile solution deployment. By engaging Deployment Services, new and existing ProntoForms customers can concentrate on their core business, and rely on our deployment professionals to complete and roll out all of their specifications, from A to Z," said Alvaro Pombo, ProntoForms Founder and CEO.

The program features three Deployment Services turnkey packages, with services ranging from custom mobile form building and deployment training sessions, to assigning a dedicated Solutions Engineer per customer and a detailed deployment report with ROI analysis.

In addition, ProntoForms also offers "A la carte" deployment services, including custom PDF output formatting, API consultation sessions and Web-based training sessions.

About ProntoForms® and ProntoForms Corporation

ProntoForms is a mobile workflow solution used by over 2,500 business customers to collect, receive and submit data in the field.
