OTTAWA, Canada - January 22, 2015 - ProntoForms Corporation (TSXV:PFM), maker of ProntoForms, the leading mobile data collection solution for smartphones and tablets, is pleased to announce that it processed approximately 7 million customer forms in 2014. At an average of two pages per form processed, ProntoForms helped to reduce the use and filing of 14 million paper sheets and 70 tons of paper in one calendar year.

“We are extremely proud of this form processing achievement. This high data record volume can be attributed not only to the multiple field process use of our product by business customers, but also to its rapidly growing popularity among large enterprises with a high number of workers in the field. We would like to thank our customers for their continued loyalty and we look forward to providing them with even more time-saving, high productivity features in 2015,” said Alvaro Pombo, ProntoForms Founder and CEO.
