

ProntoForms to Showcase Integration with ServiceMax, from GE Digital, at Maximize 2017

Integrated solution adds customer-driven, advanced enterprise features to ServiceMax platform

OTTAWA, Ont. - September 18, 2017 - ProntoForms (TSXV:PFM), the global leader in automating mobile workflows, today announced that the company will be showcasing an integrated ProntoForms and ServiceMax mobile workflow solution at Maximize 2017. The seamlessly integrated solution extends the capabilities of the ServiceMax platform with several advanced data collection and automated workflow features sought by ServiceMax's enterprise customers.

Maximize will be held September 18-20, 2017 at the Encore at Wynn Hotel in Las Vegas, Nevada.

"The ProntoForms integration is ideal for ServiceMax customers whose needs go beyond the standard data collection and checklist tools in the ServiceMax mobile app," said Mansell Nelson, SVP of Business Development at ProntoForms. "There is a large untapped market for automated mobile workflows in the enterprise market around advanced checklists, special tasks, and asset monitoring. ProntoForms enable these workflows by adding features like rich photos & sketches, conditional logic, and repeatable sections to the ServiceMax app, and we look forward bringing this integrated solution to the market."

"ServiceMax is the global leader in field service management software," said Jonathan Skelding, VP, Global Alliances at ServiceMax. "The integration of ProntoForms and ServiceMax is an example of the extensibility of our mobile platform, and easily provides our customers key business capabilities unavailable elsewhere. We look forward to working closely with ProntoForms, and our other partners, to deliver industry leading solutions that add value to our customers."

ProntoForms was certified as a technology partner in ServiceMax's Technology Alliance Program earlier this year, and the integrated field service solution is used by customers to improve efficiency, reduce costs, and mitigate risks.

ProntoForms is featured in the [ServiceMax Marketplace](#), the primary tool customers use to discover and purchase integrated solutions that expand the capabilities of the ServiceMax platform.
